Mölnlycke Giving Something Back

Mölnlycke Health Care has donated £500 to Action for Children and to Noah's Ark Trust, as part of its 'Giving Something Back' initiative, which asks employees to nominate worthy causes in the UK. The £500 donation is made to each charity on behalf of Mölnlycke employees.

Action for Children is committed to helping the most vulnerable and neglected children and young people in the UK break through injustice, deprivation and inequality, so they can achieve their full potential. Today, Action for Children is the leading UK provider of family and community centres, children's services in rural areas, services for disabled children and their families, and services for young people leaving care.

Noah's Ark Trust provides a grief support service for children, young people and their families throughout Herefordshire and Worcestershire. Professional staff and trained volunteers work on a one-to-one basis with children, aged between 5 and 18 years old, who have experienced the death of a parent, relative or someone close. The support given is free of charge and tailored to meet every individual need.

The 'Giving Something Back' initiative takes place three times a year, with the second round of nominations currently underway. Mölnlycke Health Care is one of the world's leading providers of wound care and surgical solutions to the health care sector.
