

# Re-Launch and Open Day

September 20<sup>th</sup> the day we can put the past behind us and look forward to the future. We have worked for the last month towards this day, arranging for different organisations from around the borough to come and put on displays and provide information for the members.

We had the support from the Police, Fire Service, and Age Concern. Care & Repair, Social Services, Carers, Crossroads Blaenau Gwent, CSV Community Services who all laid on displays and information and freebees.

Debra the sales rep from Urgo UK spent the day with us and it was they who supplied us with the tee shirts which had been embroidered with the Leg Club logo for the open day.

The day went off very well and was well attended by members and the public. We had a visit from one of the organisations that provided funding when we first started to give their support also a visit from Trish Law our Welsh Assembly member. Result of the day is that a

couple of the organisations that attended now want us to give them a visit to inform them of the workings of Leg Club as they are at first point of contact to the public.

We have arranged a bit of sponsorship from 3M's who have promised to supply our stationary needs, also a local company is interested in sponsoring us so we are keeping our fingers crossed on that one.

Refreshments were provided by various members and Tony (volunteer) was kept busy all day on tea duties and washing up.
