✚ ALLEVYN◊ Ag NON-ADHESIVE Foam Dressing with advanced triple layer construction and addition of silver sulfadiazine to the foam pad to protect the wound from invasive pathogenic microorganisms.[1,3]

Features and benefits

Helps minimise maceration

ALLEVYN Ag NON-ADHESIVE Dressing maintains a moist wound environment when exudate is present to help minimise the risk of maceration.[4-7]

Bacterial barrier

ALLEVYN Ag NON-ADHESIVE Dressing provides an effective barrier to microbial contamination to protect the wound from invasive pathogenic microorganisms.[1-3]

Easy to use

ALLEVYN Ag NON-ADHESIVE Dressing is easy to use, apply and remove and can be cut to size.[4,8-10]

Suitable for use on fragile skin

ALLEVYN Ag NON-ADHESIVE Dressing can be used on fragile skin and is the dressing conforms to body contours.[4,8,10,11]

Suitable for use under compression

ALLEVYN Ag NON-ADHESIVE Dressing may be used under compression bandages and retains fluid when compressed.[5,12,13]

Indications

ALLEVYN Ag NON-ADHESIVE Hydrocellular Foam Dressing is an antimicrobial absorbent dressing for the management, by secondary intention of chronic and acute full thickness, partial thickness or shallow granulating, exuding wounds such as:

- Pressure ulcers
- Venous ulcers
- Diabetic ulcers
- Burns
- Donor sites
- Fungating /malignant wounds
- Surgically dehisced wounds

ALLEVYN Ag NON-ADHESIVE may be used on infected wounds. Where the product is used on infected wounds the wounds should be treated as per local protocol.

For detailed product information, including indications for use, contraindications, precautions and warnings, please consult the product's applicable Instructions for Use (IFU) prior to use.
