✚ ALLEVYN◊ LIFE NON-BORDERED Foam Dressing has a hyper-absorbent lock-away layer which helps to minimise the leakage of fluid whilst under compression.[1,2]

Smith+Nephew

ALLEVYN◊ LIFE NON-BORDERED
Foam Dressing

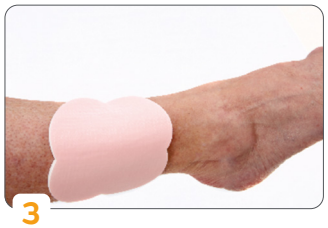
Application

1

- Remove first liner and anchor the adhesive side of the dressing to the skin

2

- Remove remaining liner/liners



3

- Smooth over
- Ensure dressing covers the wound
- Do not stretch the dressing
- The dressing can be repositioned as required

4

- Secure with secondary retention e.g. OPSITE◊ FLEXIFIX Transparent Film Roll, OPSITE FLEXIFIX GENTLE Transparent Silicone Adhesive Film Roll, tape, bandage or compression therapy

Removal

Lift one corner and slowly peel back until completely removed.

Frequency of change

During the early stages of treatment inspect the dressing frequently. Dressings can be left in place for up to 7 days. Dressings should be changed depending on the condition of the wound and surrounding skin or when exudate is within 0.5cm (3/16in) of the dressing edge.

The diagram below is for guidance only and the decision of when to change should be dependent upon clinical assessment and local protocols under the guidance of a Healthcare Professional.
