mediven mondi® made-to-measure tights & one-legged panty – medi's latest products to be available on Prescription (FP10/GP10)

Due to popular demand medi UK have expanded their range of made-to-measure available on FP10/GP10.

mediven mondi offers effective control for lymphoedema in a made-to-measure stocking and is now available in ccl 1, 2 and 3 (tights ccl 2 & 3 only) in the following styles -

- below knee
- thigh length
- thigh length with waist attachment
- one legged panty
- tights

The wider selection of made-to-measure garments on FP10/GP10 will enable our customers to have an effective treatment.

Karen Hunt, Lymphoedema Specialist Practitioner from Warwickshire said "I just wanted to let you know what a difference the mondi stocking has made for one of my patients. Her legs prior to fitting the mondi was at 44% excess and she has been wearing the mondi for the last 3 months. I re-measured today and she has reduced by 20% and now has a 24% excess!! - she has never been this low, even after bandaging! How fantastic is that, I was amazed. I have re-ordered now with smaller measurements. Just wanted to feed this back. Previous to wearing the mondi she was in a ccl3 flat knit from another company. Thank you - my patient and I are really happy with this outcome."
