For immediate release

28th February 2016

ActivHeal® Silicone Wound Contact Layer is the latest product from Advanced Medical Solutions Ltd to be available on Prescription (FP10/GP10)

ActivHeal® Silicone Wound Contact Layer is a primary dressing for use when adherence to the wound is a potential problem. The dressing is extremely conformable ensuring easy application and the pores allow exudate to pass into an absorbent secondary dressing. On the skin, the dressing will provide secure adhesion with minimal epidermal stripping or pain on removal.
