Lindsay Leg Club Foundation highly commended by Health Investor Awards judging panel

The Lindsay Leg Club Foundation was highly commended by judges for the Third Sector Organisation of the Year Award 2010. The Foundation was shortlisted alongside the eventual winner Nuffield Health.

The HealthInvestor Awards promote excellence and innovation in the healthcare sector and were held at the Hilton Park Lane in London at the end of May. The judging panel included:

- Lord Ara Darzi
- Bob Ricketts, the Department of Health's director of system management and new enterprise
- Nick Bosanquet, professor of health policy at Imperial College London
- Martin Green, chief executive, the English Community Care Association
- Susan Anderson, director of public service and skills, CBI
- David Worskett, director, NHS Partners Network

Ellie Lindsay, Leg Club Foundation founder said: "Getting this sort of recognition from a respected panel of judges at a national awards ceremony in front of 900 people is a fantastic endorsement of the work that we are doing."

Notes to editors:

1) Leg ulcers (and other chronic leg problems like lymphoedema) can affect people at any age, but are particularly common in people over 60. At present, over 80 per cent of all leg ulcers are treated in patients' own homes by district nurses or by practice nurses in GP surgeries. However, patients often find it difficult to adhere to treatment plans, or to maintain the preventive measures needed to avert recurrence of the ulcer. Many leg ulcers consequently reoccur, or remain unhealed for many months or even years.

2) The Lindsay Leg Club Foundation exists to promote the national development of Leg Clubs. The Foundation also provides the necessary support and training for nurses to establish Leg Clubs and follow the Foundation's guidelines, as well as ongoing training in new developments in leg care.

3) The Leg Club is an innovative model of care that has been shown to improve the health and wellbeing of people with chronic leg conditions. By healing chronic leg wounds and keeping them healed, Leg Clubs also have the potential to save commissioners up to 80 per cent of their wound care budget in comparison with conventional leg ulcer treatment. A Leg Club is a local partnership between community nurses, patients and members of the community. Run by a committee of members and local people, each Leg Club operates according to strict guidelines of care, monitored by the Lindsay Leg Club Foundation. The Leg Club title, the wording and logo are protected by Registered Trade Mark in the UK and Australia.
