

ABPI MADE EASY

medi

medi. I feel better.

**Struggling to find time for ABPI Assignments?
Worried about CQUIN compliance?
Limited number of clinicians trained to use current equipment?**

We have the answer - the MESI ABPI MD from medi UK.

Simple, safe and accurate ABPI measurements within two minutes.

- No need to rest the patient beforehand
- Clear ABPI reading displayed - no calculations required
- Free training and support
- Portable battery operated device - 30-50 patients measured on one charge
- Stores 30 readings and available with free results software as standard

Why has no one thought of this before?

Simplifies and speeds up the accurate recording of the ABPI.

But don't take our word for it, contact medi today to arrange a free demonstration at your clinic.
