Thetford Leg Club’s Newsletter August 2018

The nurses have a Care Quality Commission visit every year and they were passed for their hard work and dedication. We would like to congratulate nurse Debbie and the other nurses for winning an Outstanding Award this year. This is a very high award and well deserved. Well done nurses!!!!!

The visit of Ellie (OBE) the founder of the Leg Clubs, has been postponed until 19th September 2018, she will be with her P.A. Lynn. They may speak to some of you about our Leg Club, to see how it suits you.

We are still sending used stamps off to the MS Society, we’ve had quite a lot this year already, thank you for all your contributions. Keep bringing them in!

A big thank you for your donations of money and refreshment contributions.

Also, we would like to thank the gentleman who assists us with our tables and chairs at the end of our sessions, he has been very helpful, especially as we are short on volunteers.

It is very sad news that Wayne our volunteer died recently after an illness. He joined our club in April 2015 and was popular with many of us, he had a vast knowledge of unusual things, plants, insects, he made some of his own tools and liked cooking, fishing and of course motorbikes. He was a kind and pleasant person, we will miss him loads. Rest in peace Wayne.

Best Wishes to you all from us volunteers:

Frank, Jill, Linda and Ted.
