

Person Centred Care A Question of Balance?

The 19th Annual Leg Club Conference

Worcester Rugby Club, 25th & 26th September 2019

Over the years, the Leg Club conference has grown into an arena and venue for those developing and improving wound management. The annual Leg Club conference is a platform for networking and sharing important knowledge.

At the Leg Club conference, you will meet new-thinkers in wound management who question old thoughts and have courage to try new things. To find new solutions, we need to look at the existing problems with new eyes.

The 2019 Leg Club conference will look at today's current challenges in practice, the latest strategy and thinking and how they can be applied in every-day clinical situations. Our annual Leg Club conference offers a unique opportunity for delegates to learn from others and forge new partnerships. The agenda on day one has been designed to be interactive as well as informative and, in the true spirit of the conference, has been designed around previous attendee feedback and training needs.
