DISCOVER A NEW WAY OF LEARNING WITH LEARN ON DEMAND FROM L&R

A new learning platform that combines community, networking and education.

LeaRn on Demand is a new educational platform from L&R UK that gives you free and instant access to the latest clinical and educational content in wound care.

The platform has been launched to meet the educational and clinical learning needs of healthcare professionals across the UK. During the pandemic healthcare professionals have had limited access to education and product training, therefore L&R have provided a platform that is accessible 24/7. With LeaRn on Demand you don't have to be tied to a desk to learn, information can be found at your fingertips by accessing the platform via tablet, phone or laptop.

L&R are renowned for providing invaluable education to the community workforce, LeaRn on Demand will deliver the same exceptional content with additional learning opportunities including networking, sharing best practice, L&R Product Knowledge hubs and Clinical Education Modules.

LeaRn on Demand - putting you at the centre of your learning experience.
